Sir

Subject: Diminishing Number of Birds

With deep regret I wish to bring to your kind notice about the decrease in the population of birds in Mysore. Mysore is known to have more than 500 species of birds but many of them are on the verge of extinction.

According to the reports from the recent seminar held on Conservation of Birds, there was a time, when a number of birds would flock to the banks of river Kaveri, Bandipurwild life sanctuary and forested canopy in Mysore. These numbers have come crashing down in the recent years.

The main reasons are rampant construction of buildings, bridges and flyovers, cutting of forests and of course environmental pollution. Many species have become endangered. It is time the people of Mysore were made aware of this grave situation by conducting seminars and workshops.

The locals should be given incentives for preserving the birds. Sanction for the construction of buildings, malls, bridge sands so on should be given only after proper evaluation of the environmental impact of those constructions over the life of species there. Let's not forget that birds are an important link in the food chain.

I request the government, environmentalists and the society to show their concern before it is too late.

Yours faithfully

S/d

(Meera Sharma)
