Revision Worksheet No. 1

Topic: Houses We Live In

Name: _____

Class/Sec II

Date: _____

Roll

no. _____

Reading Time

A house protects us and keeps us safe. A house protects us from:

Heat of the sun

Rain

Heavy wind

Downloaded from www.studiestoday.com

Different places have different types of houses. Some are big while others are small. Some are strong while others are not. The type of house depends on the weather conditions of a place. It also depends on the materials that are available locally in that place.

LET US SEE DIFFERENT TYPES OF HOUSES

1. Pucca house: Houses made of cement, iron rods, bricks, glass, wood, etc are called pucca houses. These houses are mostly found in towns and cities. They are strong house. Some of the pucca houses are flats, bungalows etc.

Materials used for Pucca house:

Iron rods

Cement

Glass

Wood

2. Kutcha house : A kutcha house is a house made of mud, bamboo, straw, wood, leaves, ice etc. These houses are mostly found in the villages. These houses are not expensive to build. Some of the kutcha houses are igloo, houseboat, etc.

Materials used for Kutcha house:

Mud

Bamboo

Wood

Leaves
