	CLASS – II	S	UBJECT-	MATHS	CHAPTER-10 TIME
NA BAT		SEC	P NO	DATI	=

The face of the clock is called dial

The face of the clock is marked with numbers from 1 to 12.

The short hand in the clock is the hour hand.

Minute hand

Hour hand

The long hand in the clock is the minute hand.

The hour hand takes 1 hour to move from one number to the next.

The hour hand goes round the clock 2 times in a day.

The minute hand moves faster and it takes one hour to go around the clock.

The minute hand is at 12 and the hour hand is at 7.

The time is 7 o'clock or 7:00.

 $^{\wedge}_{\bowtie}$ The minute hand is at 6 and hour hand is between 1 and 2.

The time is half past one or 1:30

There are seven days in a week. 1st day → Sunday, 2nd day → Monday....

There are twelve months in a year. 1st month → January, 2nd month → February......

1 day = 24 hours.

1 hour = 60 minutes.

1 week = 7 days

1 month = 30 or 31 days. February alone has 28 or 29 days.

There are 365 days in a year.

The year which has 29 days in February is called a leap year.

A leap year has 366 days.
