No More Water

Both my parents told me not to,
but I did it anyway.

Now our water tank is empty,
and the well ran dry today

Not a drop is in the reservoir.
The lake's completely dry.
Everybody's getting thirstier
and I'm the reason why.

All the rivers are depleted.
All the streams no longer flow.
All the seas and all the oceans
are devoid of H₂O.

No, there isn't any water,
not a drop is left to drink,
because I left the faucet running,
and it all went down the sink.

Ken Nesbitt

Conjunctions are words that join two sentences or words. Write the conjunctions which are joining these sentences in the poem.
