## Competency: Understanding basic concepts

I Fill in the blanks

1. The region enclosed between the boundaries of a figure is called its $\qquad$
2. Area of a rectangle $=$ $\qquad$ x $\qquad$
3. Area of a square $=$ $\qquad$ x $\qquad$
4. The sum total of the lengths of all the line segments of a simple closed figure is called its $\qquad$
II Measure the perimeter of these figures by counting the lines along the boundary. (Each square is 1 cm in length)
