

Class V SOCIAL SCIENCE HOMEWORK WORKSHEET

Topic – The Land of Sand

Given below are statements from the lesson in your textbook. One or two words from each statement are wrong. Write the correct statements in the lines given.

1. Most deserts are located on the eastern sides of the continents.

2. Saudi Arabia is surrounded by Jordan, Iran and Kuwait in the south.

3. Shifting hills of sand in the desert are called ghats.

4. Temporary streams that are formed after rains are called rivulets.

5. Summer season in Saudi Arabia is from March to November.

6. Cacti have thorns instead of branches to reduce the loss of heat.

7. Jeddah is the capital of Saudi Arabia.

8. Fertile areas with water bodies in the desert are called date palms.

9. Saudi Arabia is one of the largest producers of diamonds.

10. People of Saudi Arabia who move from one place to another are called Arabs.

11. Bedouins move in groups with long rows of camels called pastures.

12. Abha is the holiest place of pilgrimage for the Muslims.
