
Subject: ICT

Grade 7

Create a BASICA file for the following programs:

1. WAP to input the user's name and print a welcome message. (e.g.: Welcome Arjun!)
2. WAP to input user's name and age. Find whether he is an adult or a child and print an appropriate message. (e.g.: Hello, Arjun! You are still a child!)
3. WAP to input two numbers and print the greater number. (e.g.: 25 is greater)
4. WAP to print numbers from 50 to 100. (using WHILE-END WHILE and FOR-NEXT)
5. WAP to print numbers from 1 to 20 in reverse order.
6. WAP to print first ten multiples of any given number. (using input from the user)
7. WAP to print any given table in proper format. (e.g.: 5 x 1 = 5)
8. WAP to print even numbers from 20 to 50. (e.g.: 20, 22, 24.... 50)
9. WAP to print odd numbers from 1 to 20 in reverse order. (e.g.: 19, 17, 15... 1)
10. WAP print the sum of numbers from 1 to 100. (e.g.: Sum of first 100 numbers = ...)

* Your file should have program code for each of the above on the right side of the file.

* The output for each program should be clearly written on the left side(plain) of the file.

You will be marked for your Homework assignments on the following basis:

• Submission in time	2
• Neatness	1
• Creativity	2
• Content	5
Total	10
