## CLASS VII

## WORKSHEET NO. 8

## SUBJECT: MATHEMATICS

## Chapter 7 : Congruence of triangles

Q.1. If triangle $A B C$ and triangle $D E F$ are congruent under the correspondence: $A B C \leftarrow \rightarrow$ FED

Write the parts of triangle $A B C$ that corresponds to:
a) DE
b) Angle E
c) FD
Q.2. Which congruence criterion will you use in the following. Write the congruence in symbolic form:

b)

Q.3. In the given figure $B D$ and $C E$ are the altitudes of triangle $A B C$ such that $B D=C E$
a) Prove that $\triangle C B D \cong \triangle B C E$
b) Is angle $D C B=$ angle $E B C$

Give reasons

Q.4. In the given figure $A B$ and $C D$ bisect each other at 0 . Prove that the $\triangle A O C \cong \triangle B O D$

Q.5. In the given figure ray $A Z$ bisects angle $B A D$ and angle $D C B$ :
a) Prove that the $\triangle \mathrm{BAC} \cong \triangle \mathrm{DAC}$
b) Is $A B=A D$ ?
c) Is $\mathrm{CD}=\mathrm{CB}$ ?

Give reasons

Q.6. In the given figure $A B=A C$ and $D$ is the midpoint of $B C$.
a) Prove that $\triangle \mathrm{ADB} \cong \triangle \mathrm{ADC}$
b) Is angle $B=$ angle $C$

Give reasons.

Q.7. If $A C=B D, A D=B C$ which of the following statements is meaningfully written
a) $\triangle \mathrm{ABC} \cong \triangle A B D$
b) $\triangle \mathrm{ABC} \cong \triangle \mathrm{BAD}$

Q.8. By applying given congruence rule write what additional information is needed to establish congruence
a) $\triangle \mathrm{PQR} \cong \triangle \mathrm{FAD}$ by SAS congruence rule, $\mathrm{PQ}=\mathrm{FE}$ and $\mathrm{RP}=\mathrm{DF}$
b) $\triangle A B C \cong \triangle R P Q$ by $R H S$ congruence rule, angle $B=$ angle $P=90^{\circ}$ and $A B=R P$
